

CTW Paper Evaluation

We use a rubric to assess your work. We assess your critical thinking skills presented in your paper using the following themes:

Clarity

- How well do you present information?
- This includes correct spelling and grammar as well as direct language
- Use Grammarly and other tools to help!

Relevance

- Does your text address the explicit requirements?

Depth

- Does your paper address shallow, superficial issues or do you dive deeper into exploring why these issues occur?

Logic

- Does your text make sense?
- How well do you justify your text?

Please keep in mind that all versions will be reviewed by the CTW GRA, but only the final version will be graded by your instructor.
